

## DEXTER O. MONTERO

Pansol, Quezon City, 1108 | 09761038160 | dexter.montero09@gmail.com

### OBJECTIVE

Passionate IT graduate from Quezon City University seeking an entry level position as an associate software engineer in a reputed organization where I can learn new skills, expand my knowledge, and leverage my learnings.

### EDUCATION

<b>Quezon City University</b> Bachelor of Science in Information Technology	2018-2022
<b>ICCT Colleges Foundation Inc.</b> Tech-VOC	2016-2018

### ACADEMIC PROJECT

#### **Blind Stick Navigation**

Freelance (2022)

- The blind stick prototype was developed using Arduino. It has components installed such as an Ultrasonic Sensor, GPS, GSM module, Water Sensor, and Buzzer, which allow blind people to detect objects in front of them. It can also locate the blind people's location by sending SMS to their relatives on the prototype.

#### **Web-Based Appointment and Pet Care System for Vets at Work Clinic**

Developer (2021-2022)

- This project was developed using html, CSS, bootstrap, JS, Ajax, and API. The system has a log-in account for pet owners and veterinarians. The system provides scheduling an appointment for pet owners as well as payment transactions using the Paymongo API. It can generate diagnosis results and medication that is given by the veterinarian.

#### **Payroll and Time Keeper**

Developer (2018-2019)

- This project helps to manage the scheduling of employees and manage the section, subject, course, time and room with the integration of an attendance monitor for the employee to help track the time in and time out. It was developed using VB.net and MySQL.

### SKILLS

- HTML, CSS, PHP, AJAX, JAVA, Visual Basic and Bootstrap
- Arduino
- Web Developing
- Network Setup
- Troubleshoot
- Computer / Laptop Format
